Installing the battery

When the LCD becomes dim, please replace the battery as soon as possible.

Rotate the battery cover until the compartment opens. Pop the battery out, replace with a new one and rotate the cover clockwise until it locks. Pay attention to polarity.

Operation

1. Press POWER/MODE to turn GT-28 on/off. The GT-28 will turn on to the last setting. The default tuning mode is Chromatic.
2. Press PITCH to adjust A4 from 430 - 450Hz (1Hz steps)
3. Press POWER/MODE briefly to set mode: Chromatic, Guitar, Bass, Violin, Ukulele key C, Ukulele key D.
4. Press FLAT to set semi-tone: off, ♭, ♭♭, ♭♭♭ (this is only available in Guitar and Bass mode)

5. Play a single note on your instrument, if the LCD is orange and the "horizontal lines" are moving up, that means the note is sharp; if the "horizontal lines" are moving down, that means the note is flat. Tune your instrument until the LCD changes to green.
